Re: *AT&T Corp. Petition for Declaratory Ruling Regarding Enhanced Prepaid Card Services*, WC Docket No. 03-133

Over the past several days, James Cicconi, General Counsel and Executive Vice President for Law & Government Affairs of AT&T Corp., has had two conversations with Commissioner Kevin Martin, to discuss issues related to the aforementioned proceeding. In particular, Mr. Cicconi discussed the chronology of AT&T's Enhanced Prepaid Card service before the Commission, including the adjustments made to AT&T's Cost Allocation Manual to accommodate the introduction of that service in 1994. In addition, he discussed AT&T's reasonable and continued reliance upon FCC precedent in concluding that its prepaid service was both an interstate and an information service. Finally, he reiterated that applying a retroactive ruling on the issue would inhibit or forestall investment in these and other new information service technologies coming to market, including VoIP services. The arguments made during the discussion were consistent with those and other written submissions made by AT&T filed in this proceeding.

One electronic copy of this Notice is being submitted to the Secretary of the FCC in accordance with the Commission's rules.

Sincerely,

Robert W. Quinn, Jr.
